PRESS RELEASE

Société Générale Corporate & Investment Banking Selects Centrify DirectControl for A Pilot Deployment to Optimize Cross-Platform Identity and Access Management.

Mountain View, Calif. - Centrify Corporation, a leading provider of Microsoft Active Directory-based auditing, access control and identity management solutions for non-Microsoft platforms, today announced that Société Générale Corporate & Investment Banking (SG CIB) has selected Centrify DirectControl for a pilot deployment to optimize the efficiency and manageability of its UNIX - and Linux-based computing systems. Using Centrify DirectControl, SG CIB will be able to further optimize its IT management control by leveraging its existing, robust Microsoft Active Directory infrastructure to centrally administer user accounts and access controls for its UNIX and Linux server systems in addition to its Windows systems.

SG CIB, one of the three core businesses of the Société Générale Group, delivers integrated financial solutions to corporations, financial institutions and investors in over 45 countries across Europe, the Americas and Asia-Pacific.

"SG CIB's selection process was both rigorous and comprehensive," noted Steve Kennedy, Centrify vice president of worldwide operations. "We are pleased to have been selected by SG CIB to demonstrate how DirectControl can help optimize their IT infrastructure with a solution that is secure, cost-effective and non-intrusive."

About Société Générale Corporate & Investment Banking A leading player present in over 45 countries across Europe, the Americas and Asia-Pacific, Société Générale Corporate & Investment Banking is the bank of reference for:

Euro capital markets. A top 5 player across euro debt capital markets (bonds, securitisation, loans), and a leader in French Equity Capital Markets with European reach.

About Centrify

Centrify is the leading provider of auditing, access control and identity management solutions that centrally secure an organization's cross-platform environment using Microsoft Active Directory. More than 450 enterprise customers, including over 38% of the Fortune 50, have selected Centrify for its quick-to-deploy, easy-to-manage Active Directory interoperability solutions for UNIX, Linux, and Mac systems, web applications, databases and storage systems. Centrify DirectControl secures an organization's non-Microsoft platforms using the same authentication, authorization and Group Policy services deployed for its Windows environment. Centrify DirectAudit complements DirectControl by delivering auditing, logging and real-time monitoring of user activity on non-Microsoft systems. Together, they help organizations improve IT efficiency, better comply with regulatory requirements, and move toward a more secure, connected infrastructure for their cross-platform computing environment. For more information about Centrify and its DirectControl and DirectAudit solutions, call +1 650-961-1100 or visit www.centrify.com
